INDOOR RETROFIT RANGE

SCONCE SPOTLIGHT

Particularly distinguished by its compactness and looks, this sconce spotlight is economical and offers fantastic quality.

Perfect for retrofitting, the light can be easily swapped out thanks to the low-luminance screwed cylinder.

As discreet as it is efficient, this light is capable of accentuating even the most demanding of indoor projects.

FEATURES

- Colour temperatures: 2700° k, 3000° k, 4000° k
- LED retrofit light in GZ10 or GU10 (230V)
- Direct-current LED module

OPTIONS

- Other beams
- Other finishes (*powder-coated painting*)

ACCESSORIES

- Filtres elliptiques
